Performance™
SERIES

Introducing Powerful Innovations in Comfort Control

Things to Consider Before You Buy

Comfort

The Carrier Performance™ Series **Edge™** thermostats are offered in the programmable and non-programmable versions. Enjoy greater energy savings with the Edge programmable models if your lifestyle follows a predictable daily schedule. The Edge non-programmable is an ideal choice for a lifestyle that doesn't follow a set schedule every day. You can still enjoy the same energy savings with Carrier's exclusive Touch 'N' Go™ technology.

The Carrier Edge programmable thermostat offers the most advanced - and flexible - comfort programming options available:

- ExP™* technology for personal computer programming
- Customized settings for all seven days of the week
- Four daily time periods for more temperature options
- Personalized humidity settings
- Vacation programming for optimum energy efficiency

The Edge non-programmable thermostat features:

- One-button Touch 'N' Go settings for home, away, and sleep
- Personalized humidity settings
- Easy one button temperature setting changes
- Large, easy-to-read illuminated display

edge

- Filter, UV lamp, humidifier pad, replacement reminders
- Large illuminated display highlighting inside temperature, outside temperature and time

Edge Thermostat Decorator Door Options†

The exciting new Edge programmable thermostats feature state-of-the-art technology that makes it easier than ever for you to keep your home comfortable. What's more, with a unique, ultra-thin profile and a selection of attractive interchangeable door options, these are easily the most decorator-friendly thermostats available. Designed to be as smart - and smart-looking - as any of the other electronics in your home, both Edge thermostat versions offer comfort options to fit your lifestyle - not anybody else's.

Carrier Systems for Unmatched Performance

Humidifier replenishes moisture to dry air.

Evaporator Coil allows the refrigerant to absorb heat from the air as it passes over the coil surface. The evaporator coil is located with the indoor unit and is also referred to as the indoor coil.

Furnace provides reliable, high efficiency heating for long-lasting comfort and energy savings. Available in high efficiency gas- and oil-based fuel sources.

Air Purifier improves air quality by removing harmful and irritating airborne pollutants from your home.

Ultraviolet Germicidal Lamp inhibits the growth of contaminants on the indoor coil, leaving your home with cleaner, fresher indoor air.

Ventilator combines fresh outdoor air with conditioned indoor air for improved air quality and maximum efficiency – great for today's tightly constructed home.

Zoning sets different temperatures for up to eight different areas of your home for truly customized comfort and enhanced utility savings.

Air Conditioner provides reliable, ultra high efficiency cooling for long-lasting comfort and energy savings.

Edge Thermostat - allows precise temperature control and programmable features to further customize your comfort.

Technology

- 1 **Power** – State-of-the-art technology lets your thermostat control every aspect of your home's comfort, including humidity levels.
- 2 **Display** – Large, illuminated displays make it easier than ever to monitor your home's comfort.
- 3 **Appearance** – The ultra-slim profile and decorator colors turn your thermostat into a home fashion accessory. It's an industry first!
- 4 **Touch 'N' Go** – Buttons let you tell the non-programmable thermostat if you're home, away, or asleep. Energy savings without a time schedule.

Touch·N·Go™

Press one Touch 'N' Go button - home, away or sleep - to tell your non-programmable thermostat where you'll be so it adjusts your home's temperature accordingly. It's the ideal solution for somebody who prefers different comfort settings for different lifestyle situations, but doesn't want a programmable thermostat.

-  With our new Touch 'N' Go thermostats, maximizing your home comfort is common sense. With intuitive push button controls, Carrier's Edge non-programmable thermostats have removed the complexities from home comfort.
-  Say "bye-bye" to unnecessary heating and cooling costs while you're out for the day. Even if you're not home to feel if the heat or air is on, it seems like you feel it in your wallet. But thanks to our user-friendly Touch 'N' Go technology, it's easy to stop kicking yourself for not setting back the temperature while you're away for the day or sleeping.
-  Rest easy with the worry-free way to enjoy maximum comfort and maximum energy savings all day, every day. Make your home a place of relaxation where there is no too hot or too cold, but only just right.

Efficiency

- As an ENERGY STAR® partner, Carrier Corporation has determined that the Performance Series programmable thermostats meet ENERGY STAR guidelines for energy efficiency.

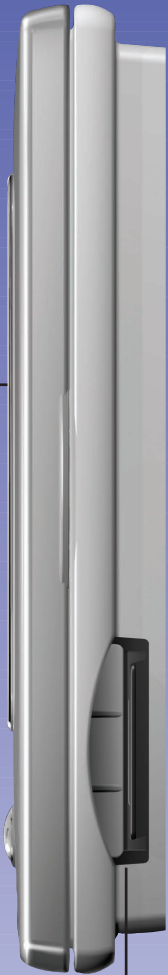

Warranty

The Carrier Performance Series Thermostat is protected by a five-year limited warranty on the entire unit. Extended warranties are also available. Ask your Carrier dealer for details.

The Innovative Edge

Less Than 1" Thick
(Actual Size Shown)

Large, Easy-to-View LCD Display

ExPTM
Expansion Port

ExP technology† is another Carrier first, making it possible for you to use a digital memory card to program your thermostat on a personal computer. Follow the on-screen instructions, insert the card back into the thermostat, and you're done!

† ExP accessory (expansion port and memory card) sold separately.

Ease of Use

Edge programmable thermostats can be programmed at the thermostat or at your computer. The choice is yours. Every configuration decision you can make at your thermostat can also be done on your computer.

"Welcome" Screen

"Schedule" Screen

Programming your daily schedule is as easy as clicking and dragging with ExP configurator.

Turn to the Experts

Willis Carrier invented air conditioning in 1902. Over 100 years later, we're proud to say Carrier systems are trusted in more homes than any other brand.

Carrier continues to be on the forefront of innovative engineering and unsurpassed standards of excellence. So when choosing a home comfort system, you'll want to turn to the experts. Your Carrier dealer will evaluate your home, such as window placement and size, ductwork, other structural specifics and lifestyle to provide a customized indoor comfort plan designed specifically for you. And when you have an expert helping you make an educated decision, you're going to feel more comfortable.
